Why do I want one?

Hound Sac has been designed for the conscientious dog walker who has had enough of swinging a bag of dog poo while out on a walk. Designed particularly in mind for those occasions such as being on a beach, shopping, public event etc. When your dog decides that nature has called and you are left pondering which handbag or pocket you might put it in.

If you have strolled along searching for that elusive 'Dog Bin' whilst the delightful aroma wafts under your nose then you need not suffer anymore.

† decided to do something about it!

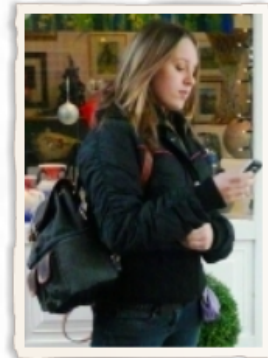

So if you would rather enjoy your walk *without* holding a bag full of poo in your hand or have it lurking in you pocket then move to the *Design* to view the clever features of this lovely practical bag!
